

SUMMER CLASS OF 2020

At MedSend, our board approves a new “class” of healthcare missionaries three times a year. We then need to find the financial support to be able to send them to their locations. The world is increasingly difficult and dangerous, yet this group of individuals are willing to step up to be the hands and feet of Jesus in these tough places.

The faces on these pages represent the \$520,000 needed to fund these professionals who are called, and those who are renewing for another four-year term. A total of over \$3 million is needed to fund all MedSend grant recipients serving in 2020. Please join us with your financial and prayer support in order to free this class to serve a hurting world.

Kristopher Ahn
Physician

Specialty: Internal Medicine-
Pediatrics

Location: United States

MEET OUR SPRING 2020 GRANT RENEWALS

MedSend is committed to supporting individuals who are committed to “long-term” missions. We reinforce this by providing a four-year grant that can be renewed every four years. The renewals are the fruit of the MedSend ministry. Please help us fund these committed and courageous healthcare professionals to serve our Lord as they continue to bring long-term compassionate care to a hurting world.

Abner Bundt* Physician

Specialty: Family Medicine
