

LEAF what you find!

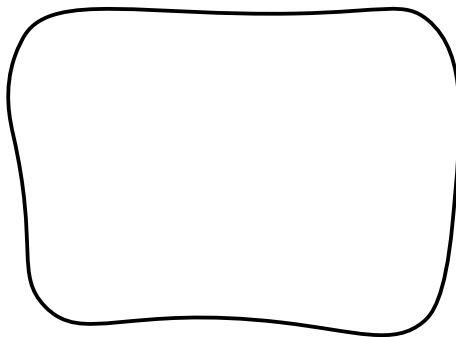

Fall weather brings lots of changes in nature, including the changing colors of leaves as they fall from the trees. Take a walk with your family and see if you can find a leaf of every color! Use the free SEEK App to take a picture of the leaf, learn about it, then "leaf" it where you found it. Leaving What You Find is an important part of nature exploration, and the animals will thank you for it!

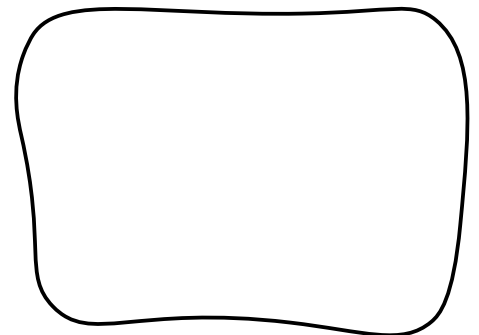

Find and Draw:

a RED Leaf

a YELLOW Leaf

an ORANGE Leaf

Tree Name: _____

Tree Name: _____

Tree Name: _____

Unbe-LEAF-able!

Leave the leaves for the critters!

Did you know that the leaves that fall on the ground are actually a home to many different creatures? Animals like slugs and snails, worms, millipedes and centipedes, spiders and beetles, all call leaf litter their home in the winter! By leaving the leaves in your yard, you're helping the birds and the butterflies!
