Let Us Rebuild Our Good Foundations

Thomas W. Jacobson, Global Life Campaign

The results of this 2024 election will have enormous impacts upon our nation and the world. Whatever are the election results, it is very clear that if we, citizens of the United States, are going to survive as a nation, and restore our nation, we must rebuild it from the grassroots up. So let us begin now to rebuild our good foundations. We can rebuild our nation by rebuilding its foundations! Serious opposition is guaranteed!

The newly published 2nd edition of ***Fire At The Founding*** is designed to help you rebuild our good foundations, for this generation and generations to come. You'll read excerpts from the 1700s clergy on choosing good government leaders (through sermons on election days), church and state, religion and government, freedom of mind and conscience, liberty as a gift from God, and the authority of pastors to speak on these matters in church *and* publicly. At the end of each chapter is a Bible study so you'll know where the clergy got their ideas from, where they gained wisdom from God. That is followed by a list of questions for contemplation or group discussion. The closing is a 3-5 point suggested sermon outline.

The book is a great resource for transforming the minds and strengthening the faith of pastors and priests, professors and teachers, church members and students, public officials and legislators, judges, and anyone who wants to regain the same wisdom and understanding of our Founding Fathers generation who built the greatest (though not perfect) nation on earth.
