South America Changes, Historic Pro-Life/Family Events in Guatemala & Appeal

Thomas W. Jacobson & Isabel Maria Salazar, Global Life Campaign

Update on Ecuador: The Ecuador abortion bill is before President Lasso for his decision, and we pray he will fully veto the bill.

South America: The two maps of South America show the dramatic policy changes related to abortion just since 2016. The Ibero-American nations appear to be the number 1 target of abortion advocates. This is why I'm in the region to consider whether this should become the primary focus of the Global Life Campaign.

Historic pro-life/family events in Guatemala: Important events will occur 9-11 March 2022 in Guatemala. On March 9, the President of Guatemala, Alejandro Giammattei, will host an event at the National Government Palace honoring Guatemala as the Pro-Life Capital of Ibero-America. Also, from March 9-11 will be the International Summit of Pro-Life & Family Organizations and the 6th Ibero-American Congress for Life & Family. I'll be on the first panel, "Defending Life," and Isabel Maria Salazar and I will be there representing the Global Life Campaign. Also, on March 12, we'll meet with Global Council of Nations leaders because I've been asked to take a leadership role in the Life and Family area.

Appeal: On Monday, March 7, Isabel Maria Salazar and I will fly to Costa Rica for meetings. Then on Tuesday, we'll fly to Guatemala for the historic events mentioned above. We need \$2,700 to cover the costs of this trip for both of us. Please consider a generous donation to the Global Life Campaign now. To give, go to "MyGift" on www.GLC.life.

For the precious gift of every child and remembrance of children unborn,

Thomas W. Jacobson, Founder & Executive Director, Global Life Campaign
