## **Democratic Party Platform: Strong Support for Abortion**

Thomas W. Jacobson, Global Life Campaign

The excerpts below from the draft 2024 Democratic Party Platform focus on their position on what they call “the right to choose” [whether or not to abort a baby], “reproductive freedom” [whether to continue or end a pregnancy], and abortion as a human “right.” But of course, there is no “right” to murder an unborn, partially born, newly born, or child of any age. Below are their beliefs in their own words (they do believe and act upon what they say, even though the opposite of much of what they say is actually the truth). [Brackets are my comments.]

**Preamble:** *“We will restore the right to choose” [to abort your baby] (p. 2).*

**Judges:** *“The Court’s attack on a wide range of long-established American legal principles – from overturning Roe and eliminating the right to choose [to abort babies], to weakening voting rights and civil rights, to granting immunity for presidential crimes – in fact undermines the rule of law (p. 40).*

**Reproductive Freedom:** *“Trump’s Supreme Court appointees overturned Roe v Wade, eliminating a fundamental constitutional right and denying women across the nation the right to choose [to abort their babies]. The extreme act of overturning Roe, which had been the [arbitrarily imposed] law of the land for nearly half a century, has already had devastating consequences nationwide.*

*“Over the past two years, more than 20 states have imposed extreme and dangerous abortion bans—many of which include no exception even for rape or incest— that . . . force women to travel hundreds of miles for care [abortions], and threaten to criminalize doctors for providing the health care [killing babies] that their patients need and that they are trained to provide. . . .*

*“President Biden, Vice President Harris, and Democrats are fighting back to restore reproductive freedom [to abort children] for every woman in every state. President Biden signed three executive orders and a presidential memorandum to stand up for reproductive rights [to abort babies]. The Administration is protecting access to abortion, including by creating a new path for pharmacies to dispense FDA-approved medication abortion and defending access in court [to override state laws]. It is expanding reproductive health care for service members, veterans, and their family members [to abort their babies]. The Administration is defending access to emergency medical care, including clarifying that federal law on emergency care preempts state abortion bans [forcing states to permit aborting babies], educating patients on their rights [to abort], making it easier for patients who have been denied emergency care to file a complaint [to force hospitals to abort babies], and ensuring hospitals meet their legal obligations to offer care [abortion]. It is challenging threats from Republicans to prosecute people who help women travel to a different state for abortion care [murder], and helping states expand access under Medicaid for women who travel from states with bans. We are safeguarding patients’ and*

*providers' privacy, including by strengthening HIPAA protections, cracking down on the illegal sharing of personal information, strengthening consumer data protections, and issuing guidance to protect student privacy in this area [so parents won't know]. And we are ensuring access to accurate information [if it is pro-abortion] and legal resources, including by launching ReproductiveRights.gov and convening more than 200 lawyers and advocates to support abortion-related legal defense services.*

*"The contrast between President Biden and Trump is stark. Trump handpicked Supreme Court justices he knew would overturn Roe, saying it would be overturned 'automatically.' He's said that he's 'proudly the person responsible' for overturning Roe, and he continues to brag about it. Trump is responsible for the more than twenty state bans that are now in effect as a result. . . . If he returns to the White House, Trump will ban abortion nationwide [no evidence of this]. And his allies plan to ban medication abortion nationwide, without Congress or the courts, by enforcing a law from the 1800s, including prosecuting women and doctors for sending or receiving medication abortion in the mail.*

*"Nine in 10 women have used contraception, and Democrats are also working to expand access to birth control . . . Under President Biden's leadership, the FDA approved the first over-the-counter daily oral contraceptive, making birth control easier than ever to access. President Biden has also built on the Affordable Care Act to make a broader range of contraceptives available to women at no cost through their health insurance. The Administration has boosted access to free and low-cost services through the Title X family planning program, and expanded access to birth control for service members and through the VA. . . .*

*"President Biden, Vice President Harris, and Democrats are committed to restoring the reproductive rights Trump ripped away. With a Democratic Congress, we will pass national legislation to make Roe the law of the land again. We will strengthen access to contraception so every woman who needs it is able to get and afford it. We will protect a woman's right to access IVF. We will repeal the Hyde Amendment. And in his second term, President Biden will continue to support access to FDA-approved medication abortion, appoint leaders at the FDA who respect science [favoring abortion] and appoint judges who uphold fundamental freedoms" [to abort babies] (p. 42-44).*

---

**PRAY** for the leaders and members of the Democratic Party to return to God; repent for advocating, promoting, and defending the destruction of human life; be restored in their capacity to discern right from wrong, good from evil, and truth from lies; return to respecting and protecting innocent human life; and to opposing instead of supporting abortion.

For the LORD, the sacred gift of life, and remembrance of the babies,

Thomas W. Jacobson
